

Today, no business can afford the uncertainty or risk of relying on how fast your computer technician can get to you in an emergency. Your IT system is just too important to your business's survival.

If you fall behind on computer or server patches, there are good odds that you will have a disruption in service or, at a minimum, performance issues. Sometimes, you just can't wait for your "employee's son who's a whiz at computers" to find time to fix the error messages you've been experiencing. In fact, if your email server or financial software applications go down, chances are you'd be suffering productivity-wise and experience financial losses.

With Maine Technology Group's Managed IT services, you can have the benefit of full-time IT help at a fraction of the cost. Whether you are a 2-person accounting practice or an international organization, our vast array of managed IT services will keep you operating at peak performance and allow you to focus on what you do best.

MANAGED HELP DESK

Let your team focus on what they're good at, and let MTG handle your help desk needs.

We'll Fight your Fires. Your team has specific talents all directed to work to complete your company's vision. Let MTG handle the tedious task of help desk support so you can focus at what you're good at.

Invest in your Company. The most profitable businesses are those that allow technology to touch all aspects of it. Team up with MTG as your Managed Services Provider to meet the demands of your business. We're here watching, 24/7.

Minimize Unproductive Time. Having someone just a phone call away will allow your employees to focus on their work and not on troubleshooting technical issues themselves

MANAGED NETWORK

Is your network performance slow? Let MTG keep your network services running at peak performance.

No more Questions. Stop wondering why the network is slow. No more throwing costly equipment at a problem because all you can do is guess. Let MTG analyze and manage traffic across your network so you can run at peak performance.

Who's using YouTube? Identify and monitor end-user experience of any web application like bandwidth consumption or programs that are taxing your business's data.

Full Transparency. Our management tools allow us to know exactly what's happening with your network all the time. We take the guess-work out of the equation.

MANAGED FIREWALL

Are you worried that your company's information is safe? With MTG you're in good hands!

Peace of Mind. It's a scary world out there. Is your information secure? Do you know what threats you're currently at risk for? No matter the size of your business, we can solve your security and compliance challenges.

We're Always Monitoring. The most profitable businesses are those that allow technology to touch all aspects of it. Team up with MTG as your Managed Services Provider to meet the demands of your business.

Valuable Report Cards. Don't assume things are okay because you can't see them. We can give you the information about what activity is taking place and where potential vulnerabilities come into play.

MANAGED WORKSTATIONS

Never worry about updates, anti-virus or performance. We've got you covered.

Do it Right. How well is your computer running these days? With our Managed Workstation Services, we always have an eye on your system. With 24/7 performance and system monitoring, managed antivirus and security updates, you can be sure you're in good hands.

Here's an Update. Save time and money worrying about your updates on your computer. How many are up to date? We'll make sure you're always up to date.

Be a conformist. Having a standard company policy is very important for many reasons. Ensure all your computers are conforming to your operating and security policies.

MANAGED SERVERS

Let us manage and maintain your servers for peak performance.

Reliable Performance. Get the most out of your investment with our Managed Server Services. With 24/7 monitoring, patch management and monitoring, MTG will keep your investment running at top performance.

Automated Monitoring. Get access to the health of your company's servers with one easy to use dashboard. See what's happening before a problem starts.

No Guessing. Have a handle on your mission critical servers with peace of mind that we can see it all. Don't lose sleep wondering when your next disaster will strike.

MANAGED MOBILE DEVICES

Keep your phones and tablets from becoming your company's biggest liability.

Mobile Peace of Mind. Mobile devices are the most common devices that are lost or stolen. Protect your company's data by having MTG remotely lock or wipe your device when this happens to you.

Are you in Compliance. Mobile devices are one of the easiest ways to circumvent security in your office. Don't be caught with the back door wide open.

Call Security. In the event of a rogue employee or even theft, we bring you the ability to track, lock down and even remotely wipe your devices.

HARDWARE AS A SERVICE (HaaS)

Get the benefit without the cost. Never buy costly technology again.

High quality technology without the large up-front costs. Never worry about the hassle of buying equipment, paying for repairs or expensive licensing. With MTG's HaaS option, you pay a small monthly fee for the use of the equipment and leave the rest to us.

Say Goodbye to Obsolete. Tired of having old equipment running your critical business applications? Don't wait to budget more money to get what you need today.

Better Security. When it comes to IT hardware and security, most times new is better. With HaaS, it's easy to upgrade to the latest hardware to support the best security.
